

CLASC Trip to  
SNOWMASS, COLORADO  
TSC TRADITIONAL WEEK  
JAN 9-16, 2016

Twenty CLASC skiers flew to Denver January 9, then coached to Snowmass.

We all enjoyed 6 days of very good snow on the slopes while staying at the Interlude Condos, 'real' ski in-ski out accommodations. Some condos were just 3 feet off the trail.

The weather cooperated all week with intermittent snow alternating with Colorado blue skies.

And we always enjoyed après ski!

Tuesday evening we were driven to the Artisan Restaurant at the base of the Village for our mid-week club dinner. The happy hour and dinner were excellent. Most CLASC skiers walked the ski slope home while some of us enjoyed a van ride back up the hill.

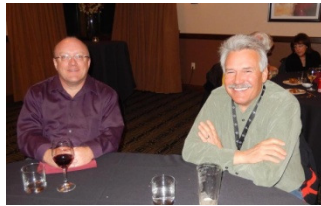

The race day picnic was something most of us had never experienced: warm and sunny dining on the snow, great food and terrific company.

Free Loader!

However, Snowmass had technical difficulties with the races. In addition to the very icy course they were not able to accurately record correct times for the participants. As a result they refunded all race fees. Some of our men returned home with medals: Glen received a silver medal plus 2<sup>nd</sup> place in the 50-59 age bracket, John and Steve both received bronze medals.

As usual, the final TSC party was a good time!

This year we were almost home free with no injuries, but at the end of the week one of our skiers tangled with the lift entry bar and lost. Donna, we all hope you are not suffering any residual effects of that little altercation.

The folks on the Snowmass trip were all so kind and 'easy' to please. It was a true pleasure to be with this group for a whole week.

Doodie and Dallas
